## USERS GUIDE - HOW TO USE THIS BY-LAW

### INTRODUCTION

These pages explain the purpose of this Zoning By-law and how it should be used. These pages do not form part of the Zoning By-law passed by *Council* and are intended only to make the Zoning By-law more understandable and easier to reference.

### PURPOSE OF THE ZONING BY-LAW

The purpose of this Zoning By-law is to implement the policies of the Township of Tiny Official Plan and to regulate the use of land and the construction of new *buildings* and *structures* throughout the municipality. The Official Plan contains general policies that affect the use of land throughout the Municipality. These policies specify where certain land *uses* are permitted and, in some instances, specify what regulations should apply to the development of certain lands. This By-law reflects the Township of Tiny Official Plan adopted by *Council* on November 26, 2018, which came into full force and effect on December 9, 2021.

The statutory authority to *zone* land and regulate land use is granted by the Ontario *Planning Act*. The *Planning Act* specifies what a By-law can regulate. A Zoning By-law can:

- prohibit the use of land or *buildings* for any use that is not specifically permitted by the By-law;
- prohibit the erection or siting of *buildings* and *structures* on a lot except in locations permitted by the By-law;
- regulate the type of construction and the *height*, bulk, location, size, floor area, spacing, and use of *buildings* or *structures*;
- regulate the minimum frontage and *lot area* of a parcel of land;
- regulate the proportion of a lot that any *building* or *structure* may occupy;
- regulate the minimum elevation of doors, windows or other openings in *buildings* or *structures*;
- require parking and loading facilities be provided and maintained for a purpose permitted by the By-law; and,
- prohibit the use of lands and the erection of *buildings* or *structures* on land that is:
  - subject to flooding;

## TINY ZONING BY-LAW

---

- the site of steep slopes;
- rocky, low-lying, marshy or unstable;
- contaminated;
- a sensitive groundwater recharge area or head water area;
- the location of a sensitive aquifer;
- a significant wildlife habitat area, wetland, woodland, ravine, valley or area of natural and scientific interest; or
- a significant corridor or shoreline of a lake, river or stream.

### HOW TO USE THIS BY-LAW

In order to use this By-law easily, a property owner should follow each of the steps listed below to determine what zoning permissions apply to their particular property.

#### 1. Locate the Property on a Map

The first step to using this By-law is to refer to the *zone* schedules and maps that are contained at the back of the By-law (in hardcopy formats), posted as Adobe (.pdf) documents on the *Township* website or to use the *Township's* Zoning Interactive Map on the *Township* website to determine which *zone* category your property is located in. The *zone* category will be indicated on the maps or in the Zoning Tool by a symbol or abbreviation. For example, you may see a symbol such as "SR" for the property. This would indicate that your property is within the "Shoreline Residential" *Zone*. The *zone* symbols or abbreviations are explained later in this guide and in Section 1 of the By-law.

Section 1 also provides assistance to help you interpret the *zone* boundaries on the zoning maps. For example, if your property appears close to a *zone* boundary and you are not sure how to determine exactly where that boundary is located, Section 1 of the By-law will provide appropriate guidance.

#### 2. By-law Amendments

A Zoning By-law is not a static document; it is amended over time as demands and policies governing land use change. Before proceeding any further, you should verify that your property is not the subject of a Zoning By-law amendment. While the *Township* strives to keep this By-law up-to-date, more recent amendments may not be included in the version of the By-law you are using. Staff in the *Township's* Planning Department will be able to assist you to confirm if your property has been subject to a more recent By-law amendment.

### 3. Zone Provisions

The next step to using this By-law is to determine what *uses* are permitted on your property. Tables 4.1 to 4.6 in Section 4.0 of the By-law identify the permitted *uses* for each *zone* in the Municipality.

The definitions in Section 7.0 can assist you if you are not sure of the nature of a permitted use or how it has been defined for the purposes of this By-law. *Uses* which are not identified as permitted *uses* within a particular *zone* are not permitted in that *zone*. *Accessory uses* to a permitted use are permitted in accordance with the provisions of Section 2.0 of this By-law.

If your property is subject of one of the four overlay *zones* (Nipissing Ridge, Well Head Protection Area, Issues Contributing Area, and Huronia Airport) there will be additional restrictions on permitted *uses* and/or certain regulations. These additional regulations can be found in Section 2.0 of this By-law.

You have now identified the *zone* in which your property is located and have identified what *uses* are permitted on your property. The next step is to determine what standards may apply to the *uses* on your property. Section 5.0 will provide you with the specific *zone* standards that apply to any new *building* or *structure* (i.e. minimum *setbacks*, maximum lot coverage, maximum *height*, etc.).

### 4. General Provisions

Now that you are aware of the *uses* permitted on your property and the specific *zone* requirements that apply to those *uses*, reference should be made to Section 2.0 of this By-law. Section 2.0 contains a more general set of standards known as 'General Provisions' that apply to all properties in all *zones* throughout the Municipality. For example, the general provisions section contains standards that regulate the location of accessory *structures* on a lot and *height* exceptions, as well as providing guidelines for the potential expansion of legal *non-conforming* uses and/or *non-complying* buildings and structures. The General Provisions apply to all properties regardless of what *zone* the property is located in, unless otherwise specified.

### 5. Parking and Loading

Section 3.0 provides the parking and *loading space* requirements for all *uses* permitted in the Municipality. If you are considering changing the use of your property or adding a new use to your property, you should review Section 3.0 to ensure that you are aware of the parking requirements for the proposed use. All required parking generated by a change of use, new use or new *building* must be accommodated on-site and off the *public street*.

### 6. Exceptions, Holding Zones and Temporary Uses

As noted in #2 above, By-laws are not static documents and lands may be subject to a *zone* exception, a holding *zone*, or a temporary use. If a *zone* symbol is followed by a dash (-) and a number, the lands are subject to a site specific exception and are subject to site specific exception provisions in addition to all provisions of the parent *zone* and general provisions, unless otherwise stated in the exception. These can be found in Table 6.1 in Section 6.0. If the *zone* symbol is followed by an (H) or a (T), the lands are subject to holding symbol or temporary use, which can also be found in Section 6.0, Tables 6.2 and 6.3.

### WHAT ARE THE TERMS 'LEGAL NON-CONFORMING' AND 'LEGAL NON-COMPLYING' FOR THE PURPOSES OF THIS BY-LAW?

A legal *non-conforming* use is a use of land and/or *building* that legally existed prior to a Zoning By-law coming into effect. To be legal, the use must have been lawfully established and permitted on the lands in accordance with the second Zoning By-law for the *Township* of Tiny (By-law 30-77 passed July 28, 1977) for the *Township*.

A legal *non-complying building* or *structure* is a *building* or *structure* that was legally constructed and in a location that was permitted at the time in accordance with the applicable Zoning By-law but does not comply with the current standards. Alternatively, if the *building* or *structure* existed before the passage of the second Zoning By-law for the *Township* of Tiny (By-law 30-77 passed July 28, 1977) the *building* or *structure* would be legal.

Guidance on both *non-conforming* and *non-complying uses* are provided in Section 2.0 General Provisions.

### DESCRIPTION OF THE BY-LAW'S COMPONENTS

This By-law contains eight sections, which together, provide the land *uses* and standards applicable to all lands within the Municipality. These sections are as follows:

- Section 1.0 – Interpretation and Administration
- Section 2.0 – General Provisions
- Section 3.0 – Parking and Loading
- Section 4.0 – Permitted *Uses*
- Section 5.0 – Zone Standards
- Section 6.0 – Exceptions, Holding and Temporary Use Zones
- Section 7.0 – Definitions
- Section 8.0 – Enactment

The purpose of each of these Sections is described below.

## TINY ZONING BY-LAW

---

### Section 1.0 - Interpretation and Administration

This section of the By-law specifies a range of interpretation and administration matters including the following:

- title of the By-law;
- what lands are covered by the By-law;
- that every parcel of land in the area covered by the By-law is to conform and comply with the By-law;
- that the requirements of the By-law must be met before a *building* permit is issued;
- the establishment of the *zones* and *zone* symbols used in the schedules and in this By-law; and
- what penalties can be levied against a *person* or a *corporation* if they contravene any provision in the By-law.

### Section 2.0 - General Provisions

This section contains regulations that apply to certain types of *uses*, *buildings* or *structures* regardless of where in the Municipality or in what *zone* they are located. For example, this section contains provisions dealing with the construction of accessory buildings and structures in any *zone*, provisions to regulate the operation of *home occupations*, and overlay *zones* that apply to specific areas.

### Section 3.0 - Parking and Loading

Parking and loading facilities are required for almost all *uses* within the Municipality. This section provides the requirements for parking facilities including such regulations as the minimum number of spaces required for a range of *uses*, minimum *driveway* widths, minimum *parking space* size, and the location of parking facilities on a lot.

### Section 4.0 – Permitted Uses

This section identifies the *uses* that are permitted in each *Zone* category. The effect of these *Zones* is to only permit certain *uses* in various *zones* and areas of the Municipality. The only *uses* permitted in a *zone* are those that are specified in the By-law. If a use is not specifically mentioned as a permitted use in a *Zone*, then it is not permitted. Similarly, if a use is defined in Section 7.0 of the By-law but does not appear as a permitted use in any *zone*, then it is not a use permitted by the By-law.

### Section 5.0 – Zone Standards

*Zone* Standards are set out in Section 5 of this By-law and contain a number of regulations that control the placement, bulk and *height* of *buildings* on a lot or parcel of land. This includes regulations such as minimum lot size, minimum *lot frontage*, maximum *building*

## TINY ZONING BY-LAW

---

*height*, or the maximum coverage of *buildings* and *structures* on a lot. Standards are provided in tables and are organized by broad *zone* categories.

### Section 6.0 – Exceptions, Holding and Temporary Uses

This Section provides a consolidated list of properties that are subject to *Zone* Exceptions, Holding *Zones* and Temporary Use *Zones*. These are noted on the schedules to the By-law with the *zone* symbol and number (i.e. SR) or following the *zone* symbol (i.e. SR-H1, or RU-T3).

### Section 7.0 - Definitions

It is necessary to define words in a Zoning By-law because it is a legal document. A By-law must be drafted so that it can be enforced in a court of law. These definitions will help provide clarity in the By-law and ensure that the By-law and its intent are applied consistently. If a word is not defined, refer to a dictionary and apply the defined term in the context for which that word is used.

### Section 8.0 – Enactment

This section contains the signatures of the Mayor and the Clerk who signed the By-law when it was passed by *Council* in accordance with Section 34 of the *Planning Act*, R.S.O. 1990 c.p. 13.

### WHAT TO DO NEXT?

Still stumped? Contact the *Township* Planning Department and they will try to answer your questions with respect to the zoning rules and regulations affecting your property. Contact information is available on the *Township* website at [www.tiny.ca](http://www.tiny.ca).

What if you are able to find your zoning, but the use you are proposing is not permitted or your *building* location does not comply with the relevant *setbacks*? You may need to apply for either a minor variance, Zoning By-law Amendment, or other planning application if you cannot or do not wish to change your development plans. In this instance, you should contact the *Township* Planning Department to discuss the other planning approvals that you may need and what would constitute a “complete application”.

If you found all the relevant information and you think you are ready for your construction project, information on the requirements for a *Building Permit* application pursuant to the Ontario *Building Code* are also available on the *Township* website at [www.tiny.ca](http://www.tiny.ca).

### 1.3 COMPLIANCE WITH BY-LAW

1.3.1 No *person* shall change the use of any *building*, *structure* or land or *erect* or use any *building* or *structure* or occupy any land or *building* except in accordance with the provisions of this By-law.

For the purposes of this section expropriation means expropriation by the *Township* or any other authority having the power of expropriation, and conveyance means the taking or receiving of land by the *Township* or any other authority having the power of expropriation, either in satisfaction of a condition imposed on a provisional consent granted by the Committee of Adjustment or as a condition of the *Township's* site plan control

1.3.5 To the extent of any conflict among the provisions of this By-law, the more restrictive provisions shall apply.

1.3.6 Any use not specifically permitted by this By-law shall not be permitted in the *Township of Tiny*.

1.5.3 The following rules and definitions apply to this By-law, unless a contrary intention is evident from the context:

- a) this by-law is written in plain language;
- b) a deliberate attempt has been made to keep the words, the grammar and the syntax used as simple as possible while meeting the legal requirement for clear and precise legislation;
- c) the words used in the By-law have their ordinary meaning, unless otherwise defined in this By-law; and
- d) Definitions are given in this By-law to aid in the understanding and implementation of the true spirit, intent and meaning of the By-law. They are not to be used to avoid an obligation imposed by the By-law or any requirement enacted in a substantive provision of the By-law.

- 1.5.4 Despite the tense used in a provision:
- a) every provision of this by-law is to be applied to the circumstances as they exist at the time in question; and

- 1.5.12 Words in the singular include the plural, and words in the plural include the singular.
